**SUPPLEMENT TO ANNUAL ETC REPORT OF DOCOMO PACIFIC,
INC. D/B/A GUAM CELLULAR AND PAGING**

DOCOMO PACIFIC, INC. d/b/a Guam Cellular and Paging (“DOCO MO” or “the Company”) an Eligible Telecommunications Company (“ETC”) in the islands of Saipan, Tinian and Rota in the Commonwealth of the Northern Mariana Islands (collectively referred to as “CNMI”) hereby supplements its annual compliance filing (“2009 Annual ETC Report” or “Report”) containing information as set forth in the Commission’s Report and Order in the above-captioned proceeding (“*ETC Report and Order*”)¹ and in the Commission orders designating Company as an ETC.²

1. Outages.

In its Report, DOCOMO’s discussion of outages for CNMI erroneously referenced Guam. This was a ministerial error, and any references to Guam in that section should be replaced with CNMI.

¹ *In the Matter of the Federal-State Joint Board on Universal Service, Report and Order*, 20 FCC Rcd 6371 (2005).

² *See Federal-State Joint Board on Universal Service, Guam Cellular and Paging, Inc. d/b/a Saipancell Petition for Designation as an Eligible Telecommunications Carrier on the Islands of Saipan, Tinian, and Rota in the Commonwealth of the Northern Mariana Islands*, 19 FCC Rcd 13872 (2004).

Additionally, in response to an inquiry from Commission staff, DOCOMO clarifies that it experienced no outages affecting 911 special facilities.

2. Construction Plan Progress and Use of Support.

Pursuant to the *ETC Report and Order*, DOCOMO's Report provided an update showing its progress on its five-year service quality improvement plan, including maps detailing progress towards meeting its plan targets, an explanation of how much universal service support was received and how support was used to improve signal quality, coverage, or capacity; and an explanation regarding any network improvement targets that have not been fulfilled.³

In response to Commission staff's inquiry, DOCOMO clarifies that Saipan consists of five wire centers: Capitol Hill, Gualo Rai, Kagman, Susupe, and Airport. DOCOMO provides a revised map showing the boundaries of these wire centers along with the locations of the new cell sites and other improvements referenced in the Report. The original version of the map was submitted under seal as part of Exhibit A, and this supplemental version is intended to replace the map in the original Exhibit A. As with the initial filing, DOCOMO is submitting Supplemental Exhibit A with a request for confidential treatment.

³ See *ETC Report and Order*, *supra*, 20 FCC Rcd at 6400; 47 C.F.R. § 54.209(a)(1).

We trust that you will find this supplemental information to be responsive to the compliance materials requested in the *ETC Report and Order* and in the orders designating DOCOMO as an ETC in CNMI.

Respectfully submitted,
